ECOTOXIC

KEEP OUT OF REACH OF CHILDREN

DuskTM

**SLUG AND
SNAIL BAIT**

Enhanced Durability.
High Coverage.
Weather Resistant Formulation.

Active Ingredient:

54 g/Kg of iron EDTA complex in the form of a granular bait

9 421004 530804

10 kg

PLEASE READ THE LABEL COMPLETELY BEFORE USE

HAZARD CLASSIFICATION: 9.1D

WARNING: Ecotoxic to aquatic organisms. Avoid contamination of aquatic environments with the product or packaging.

Precautions: Keep out of reach of children. Store in the original container. Wash hands after use.

Disposal: Dispose of this product by using in accordance with this label. Dispose of packaging to a suitable landfill.

GENERAL INFORMATION

Dusk is a highly effective slug and snail killer. The pellet contains iron, which is bound into a complex. Once slugs and snails have fed on the pellet, the iron is released from its bound form in the gut, and is uniquely toxic to slugs and snails. Dusk is safe to use, and is safe around animals, pets and birds. It does not harm earthworms. Dusk granules are optimally sized to allow for effective ground coverage for enhanced crop protection.

As Dusk does not work through paralysis, slugs and snails move away after feeding. There may therefore be no dead slugs or snails visible after use.

Dusk can be used around seedlings or established plants in agriculture and horticulture.

DIRECTIONS FOR USE

Broadcast: Use 15 kg/ha. Application can be made before, during or after sowing. Apply evenly over the ground surface. For band application along rows, apply as close as possible to the plants. Application is best made after rain or irrigation when slugs and snails become more active. Do not apply onto edible plant parts.

Batch No:

Date of manufacture:

DUSK

Drilling with seed: Use 10 kg/ha. Apply through the granule applicator hopper or mixed in with the seed. Only use where the drill leaves an open slot allowing slugs access to the baits. Otherwise broadcast the baits as above.

When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of product that is older than this.

WARRANTY

This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer's control. The manufacturer declines all liability for damage resulting from improper storage or use of the product.
